

THE 2017

Wedding Experience

PRICING GUIDE

presented by

SUSIE & BECKY

Our story begins with our husbands. They are brothers who share an unbreakable bond kept close through loud, laughing phone calls. (Seriously, they don't know the difference between talking and yelling, which we find endearing). Without them, we never would have met, more less established a business together. Our marriages have everything to do with the way we approach wedding photography.

First, we know that a wedding day isn't only about the bride and groom. You will be surrounded by the people who love you the most. We want to celebrate those bonds!

Second, here's something our husbands share: they can't stand being in front of a camera! In sympathy to them, we've learned to work in a way that makes everyone feel comfortable and the images genuine. If it's the way your groom's eyes crinkle when he smiles naturally, we'll get those crinkles captured!

Third, we will arrive at your wedding absolutely brimming with enthusiasm for marriage, which is the most joyful blessing that either of us experience. We congratulate you on your engagement from the bottom of our hearts and can say, 7 years later for Susie, and 14 years later for Becky – the best is yet to come!!

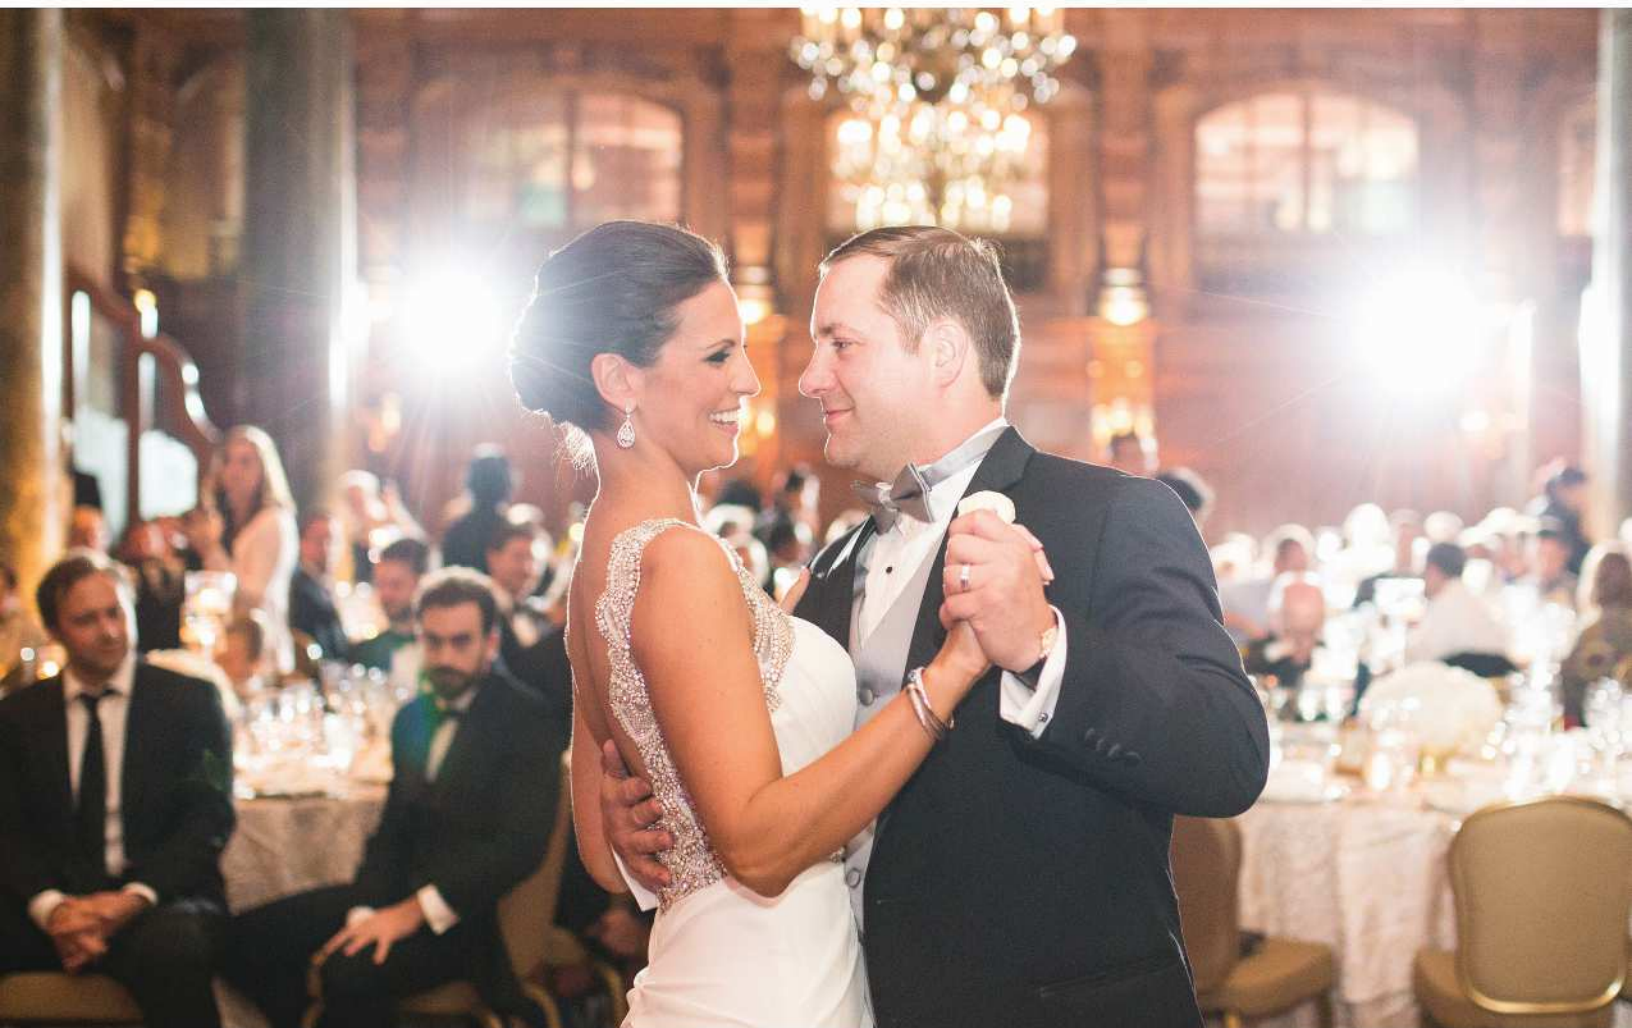

Our Philosophy

Our commitment is to make couples feel relaxed, cared for, and highly valued. The comfortable experience we create for our couples is exactly what allows them to relax into the natural & emotional images we're known for. Here are the 4 keys to the experience we provide:

- We communicate with promptness and concern. Together, we'll work through a timeline that will give us plenty of flexibility to handle unexpected twists.
- Your feelings and needs **ALWAYS** come first on your wedding day. We're professionals and can handle whatever happens – and any personalities in the room - with grace.
- Our “posing” techniques aren't forced – portrait time will be the most relaxing, romantic, and fun part of your day!
- We stay out of sight and respect sacred moments. Your wedding day is a story – we observe it, record it, and tell it – but we're not part of it.
